

If your Printer is printing blurred text, you need to change your printer settings:

This can be done as follows:

1. First choose **File** and **Print**
2. Click **Advanced** at the bottom. **Tick ON Print as Image** and change from 600 dpi to **300 dpi**
3. From the Print menu, choose Printer **Properties**
4. Then click on the tab **Paper / Quality** and choose **Advanced**
5. In **Printer Features – Graphic Mode** – choose **Raster**

This should solve any problems of blurred printing.

If you still encounter difficulty please contact us at eau@gov.mt
